Reasons for Allowance

1.

Claims 1-12 are allowed for the reason the prior art does not teach or suggest in claimed combination, "... calculating a dynamic image mask value for each pixel by averaging the original value of a pixel with only the original values of the pixels proximate that pixel having original values lower than a threshold sharpness."

Claims 13-20 are allowed for the reason the prior art does not teach or suggest in claimed combination, "... applying a blurring algorithm to form a blurred representation of the decimated representation, wherein the blurred representation includes a plurality of pixels having varying values to form sharp edges representative of rapidly changing boundaries in the decimated image and less sharp regions corresponding to regions of less rapidly changing values in the decimated image..."

Art Unit: 2626

Claims 21-35 are allowed for the reason the prior art does not teach or suggest in claimed combination, "... calculating a dynamic image mask value for each pixel by averaging the original value of a pixel with the original values of the pixels proximate that pixel having original values lower than a threshold sharpness."

Claims 36-41 are allowed for the reason the prior art does not teach or suggest in claimed combination, "... calculate a dynamic image mask value for each pixel by averaging the image value of a pixel with the image values of the pixels proximate that pixel having image values lower than a threshold sharpness."
